ChatGPT Prompt Guide

This guide will help you write website content easier with tailored prompt to ChatGPT

Steps

Step 1: Introduce your intention

Step 2: Paste your draft paragraph

Step 3: Get the improved version

Tips

Using Adjectives: Words like **"Popular", "Common", "Successful", "Latest"** etc, will let ChatGPT to generate responses in a more focused and informative way.

Voice and Tone : Descriptive.

Adjectives help narrow a question's scope and make it more specific, allowing me to provide a more focused response. For example, **"good books about history" is broad**, while **"recent books on Ancient Rome's history" is more specific** and yields more relevant recommendations.

Try to be playful and you can even ask him questions in a way you ask your friends. For instance you can ask:

" Can you help me in improving this"

This would actually be a fun experience for you to improve/ research your general requirements in copy writing.
